RE: Continued Permit & GNA violations - Mayor's Homeless tent - NW Naito

Mayor:

This is letter 17 in just over 10 months illustrating how your promises made, are never kept

On behalf of Neighbors4SafeSmartShelters (n4safe) volunteers, supporters and members over 1000 strong, together are submitting this letter to you and Council. This letter is a follow up to the letters to you and the Council members dated 12/17/23; 1/9/24; 3/15/24; 5/20/24; 5/27/24; 6/16/24; 6/30/24; 7/5/2024; 7/19/2024, 7/27/24; 8/11/24; 8/16; 8/27; 9/2; 9/15, 10/11 and now today (**17 letters** on recent violations/no response so far) to provide additional documentation of the ongoing operational failures and violations of your homeless facility.

Please note **continuing and many new**GNA/Permit violations photos.
Daily occurrence, no action.

Please respond to n4safe volunteer's questions. Photo's attached.

n4safe volunteers are writing again today to illustrate your continued failed operation of the illegally transformed temporary shelter into a permanent homeless facility on NW Naito.

The existing GNA requires clean-up, no tents, camping and no garbage within 1000 feet of the facility. As you can see by the additional new photos - your office has not and does not seem to be interested in following even the most basic requirements of the existing GNA. ***Tents are always around the facility - even if they are removed it's weeks after being reported - HOH residents or other homeless making their home just outside the doors.***

The approved "permit" requires security for the operation. These questions continued to be posed to you and your office - still no answer:

-Who is providing the 24/7 security required?

-How does the community make contact when there are violations of the law and the former GNA (which must be in operation)? Please, what is the answer?

This is yet another example of why the promised temporary facility should be removed and placed in a more suitable location. ***Promises made - never kept.***

The former Harbor of Hope center is run by whom, what entity? The NW Naito facility continues to be riddled with health and safety hazards, and has forced local home own-

ers, renters and other residents to retreat into their homes rather than enjoy the neighborhood they sought to experience.

Your office, Harbor of Hope, Prosper Portland and all the parties involved have failed to honor the signed promises to what was to be a 5 year operation. It is now a permanent center with no commitment to improve safety and security nor abide critical GNA requirements.

For more almost 5 years, letters to you have gone unanswered and still as of 11/14/24 at 9:00 pm, still no response.

In addition to the reporting of the numerous violation, the questions below are critical to understanding the state of city action regarding the homeless situation, Please respond:

Because HOH is a city shelter what are their stats on the dashboard?
How is the info independently verified? Volunteers and the media are leery of the data being **provided by the shelters with no independent verification**. The shelter operators have a vested interest in keeping the Federal, state and county tax dollars.

When the Federal tax dollars budget is finished in June,2025, does that mean the NW Naito Facility will lose total funding unless, as suggested in the press, the county takes it over? Unfortunately, that would mean **more incompetence because the county sub-contracted with failed businesses like Transition Projects and Urban Alchemy, and others.**

There are only one or two GNAs (of the 9 promised) in place in city run facilities - so management and operational successes are NOT monitored or binding, nor transparent to the public.

Information has not been - **along with the lack of tracking when residents leave, where they go and follow up as to whether they are back in the street or at a different shelter. What's the answer?**

N4Safe has tried many times to communicate in a constructive, collaborative and considerate manner. **The result is the city's constant and consistent dismissal of viable concerns, reports of lease and GNA violations, illegal camping within the 1000 foot GNA mandated perimeter, and indifferent comments and responses from your office staff who represent you.**

N4S volunteers urge you to relocate the HOH residents and the OHOH Navigation Center in accordance with The Pearl District Urban Renewal District Plan and other legal documents that have been heretofore ignored. **N4safe volunteers urge you to relocate the temporary structure to a suitable and successful site like Bybee Lakes.**

Respectfully,
-the volunteers at n4safe
